

## See what Principals and Teachers have to say about the BEE CLEVER Series

"I am delighted to see these BEE CLEVER workbooks that do not pitchfork the child straight into the three R's but are systematically going through all the requisite stages of reading, writing and math readiness. They are enjoyable and creatively made with attention to details. Introductions are useful and informative and instruction lines are crisp and easy to follow. This is what children have needed all along and not had access to!"

**Nandita Jhaveri**

Former Vice Principal, New Era School  
Consultant in Early Childhood Care and Education

"I have gone through the entire set of BEE CLEVER workbooks and find them very clear and simple to follow by little children in school. They have been aptly designed for pre-schoolers. The activities are age-appropriate and all the concepts are dealt with systematically and clearly. The illustrations are clear and the pages not too cluttered with activities."

**Lekha Merchant**

Head Teacher, Saifee Eidiz Zahabi Nursery & K. G. School

"Based on decades of experience by Pallavi Dalal, a knowledgeable and sensitive teacher, these books are aimed at helping children consolidate their concepts based on practical experiences."

**Nalini Chhugani**

Secretary, Mobile Creches  
President, Association for Early Childhood Education and Development  
(Mumbai Branch – AECED)

"The BEE CLEVER workbooks are attractive, pictures are large, clear and appropriate. Instructions are precise and brief. There is an element of surprise to sustain the interest of the child. The contents match with the themes generally used in pre-school. The illustrations have a sense of humour and fun."

**Jana Mahadevan**

Former Head of Department, Early Childhood Education (ECE)  
Nirmala Niketan and Sophia Polytechnic

"BEE CLEVER Series is an excellent collection of child-friendly, challenging books that help develop visual discrimination skills that help them to think and reason efficiently. Each page has been meticulously planned and a theme has been chosen so that a teacher can creatively weave a story around it. Clear, simple instructions help the children to persevere until they successfully achieve the challenge that is placed before them."

# Opposites

## Book 1

'Opposites' is a concept that is abstract, but can very easily be made 'concrete and understandable' to little children!

Learning about 'Opposites' provides a number of benefits to a child:

- Improves and builds vocabulary
- Encourages the child to observe and name contrasts and make associations based upon them
- Brings certain 'difficult' words into a 'simple' perspective and makes them easy to understand

Do ensure that the child has been exposed to a number of 'concrete' and 'real' objects that will help to reinforce the concept of opposites. Also, try to ensure that the contrast between the opposites is as marked as possible so as to make the concept absolutely clear.
